

I listen to K-LOVE in my car and at home. I listen to it because I have three at home ages 9, 8, and 18 months. It is encouraging to listen to inspritational music and not have to worry about what my kids are hearing. Children get filth thrown at them enough everyday. If you listen to K-Love for one day you could hear how many lives are changed. If it is taken off the air it will be a very sad day.

Sincerly,
Debbie Queen
